Date: Tuesday, October 06, 2015 7:25:00 AM

Diane, the week of Oct 19 is the tentative scheduled for the additional field work. This schedule has not yet been finalized. The geophysics work is still being evaluated, and the next phase of field work will be based on the understanding we learn from the geophysics work. We do not have a work plan or schedule for the remaining RI/FS work. Once the Phase 1 work (geophysics and CPT/LIF) is complete, we will have a better idea about how to proceed. As these plans and schedules become available, I will share them with the group.

thanks

Katrina Higgins-Coltrain

Good morning Katrina,

Since you are hosting this event that Amy Brittain sent me, I am sure you are aware of it.

When I spoke with you at the Tar Creek Conference, you mentioned some type of field measuring at the Wilcox Oil Company Superfund site that is also going on during the work day. Has a date and time been set for the field sampling activity?

Also, is there a copy of a work plan or schedule of EPA Remedial Investigation and Feasibility Study planned activities that we can get from you?

Thank you,
Diane

Subject: Invitation to Wilcox Superfund Site Community Meeting on October 21, 2015

Please see your attached invitation to the next community meeting for the Wilcox Oil Company Superfund site.

The U. S. Environmental Protection Agency (EPA), in Cooperation with the Oklahoma Department of Environmental Quality (DEQ), will conduct a community meeting to update residents on activities at the Wilcox Oil Superfund Site. Participants will learn about the Superfund Process, recent sampling events and future plans for the Site. The community meeting will be held:

**October 21, 2015
5 to 7
Bristow Public Library
111 West 7th Street
Bristow, Oklahoma 74010**

The meeting will consist of open time from 5-5:30 to meet with EPA & DEQ Representatives, followed by a brief presentation and open time for questions.

This meeting is being held in a fully accessible facility. Should you have any specific needs or questions about the facility, please contact Bill Little, Community Involvement Coordinator/SEE at 214.665.8131
